FILIP DUKAT

SOFTWARE DEVELOPER

Profile Info

As a software developer, I specialize in frontend development using React ecosystem. With a passion for technology and a strong desire to learn and grow, I approach each project with ambition and a commitment to delivering quality work. With excellent communication skills and a collaborative approach, I work effectively in teams and am able to effectively communicate technical concepts to both technical and non-technical stakeholders.

Experience

Frontend Developer
Freelancing

2023 - now

Stack: **Typescript, Javascript, React, Next.js, Redux, AWS, Jest**

Frontend Developer
Andersen | *Letter of recommendation*

2021 - 2022

Stack: **Typescript, Javascript, React, Redux, AWS, Jest**

Frontend Developer
Freelancing

2020 - 2021

Stack: **Javascript, React**

Expertise

Javascript, Typescript

React, Next.js

Redux, Flux, Jest

Storybook, MUI, Styled Components

Communication

Analytical Thinking

Creativity

Other activities

Speaker
Frontend Hero Meetup

Attending internal company meetup where I hosted presentation called "Accessibility in modern web applications" about a11y practices and why it is important to create websites that are friendly for everyone.

Expert
Js13kGames

Reviewing work of competitors in game development hackathon in which main goal was to create a game in Javascript that will be no bigger than 13kB after compression. During this hackathon, I also attended an interview about beginner programming tips, game development industry and technology in general.
